Introduction

Thank you for using TunePat Pandora Music Converter for Windows!

TunePat Pandora Music Converter for Windows is a professional music downloader for Pandora Music. No matter you are a Pandora Free, a Pandora Plus, or a Pandora Premium user account, you can easily get the desired songs from Pandora. With this amazing converter, you can convert Pandora Music tracks into common formats, including MP3, AAC, WAV, FLAC, AIFF, or ALAC conveniently. After a successful conversion, you can freely play your favorite Pandora Music on different types of devices offline. Moreover, you can share your preferred playlists with your families, friends, and colleagues happily.

TunePat Pandora Music Converter can also surprise you regarding the conversion speed. It saves a lot of time by converting the playlists you want at a 10x fast speed without damaging the original audio quality. Additionally, the ID3 tags of Pandora songs like track title, album title, artist name, artwork, and more will also be preserved.

Purchase TunePat Pandora Music Converter for Windows

Tip: To buy a license key for TunePat Pandora Music Converter for Windows, click here.

1. Why should I buy TunePat Pandora Music Converter for Windows?

TunePat Pandora Music Converter for Windows is a shareware with a trial limit that users can only convert the first minute of each file. To remove this restriction, you need to purchase this product and you will then receive the registration key used to register the program.

### 2. What are the Benefits after Registration?

- You can enjoy **FULL** features and perfect conversion.

- You can enjoy **FREE** upgrades to the latest versions of the same product.

- You can enjoy **FREE** technical supports.

Register Windows Version of TunePat Pandora Music Converter

Step 1: Launch TunePat Pandora Music Converter on PC and a pop-up will appear automatically. You need to log in to your Pandora Music account. If the program doesn't launch the registration interface, please click on the **Register** icon or **Menu > Register** to access the registration interface.

Step 2: Then copy and paste the registration Email and Code into the registration popup Window. Then make a confirmation to register.

Step 3: Once the registration process is done, there will be a pop-up dialogue saying "You have successfully registered the program. Thank you for your support!", and it will also show you when your license will expire.

Note:

- Make sure both Registration Email and Registration key are provided by our company after purchasing. If you have not paid, please click **Buy Now** to finish the payment and get the license.

- The key will be sent to you once you purchased TunePat. If you do not receive the license key after a few minutes, please check your Spam E-mail folder or contact our support team for help.

- Please note that the registration information is case-sensitive. And please do not add a blank at the beginning or at the end of the word. We suggest you simply copy & paste the Registration information into the pop-up dialog.

- The Windows license can't be used on a Mac or MacBook and vice versa.

Installation

To install this product, please refer to the following steps:

1. Download the latest version of TunePat Pandora Music Converter through Download Center.

2. Double click the "pandora-music-converter.exe" file to accomplish a "single-click install".

3. After installing, double-click the TunePat Pandora Music Converter icon to launch the program.

Main Interface

Run the TunePat Pandora Music Converter for Window and you will get two pages: the interfaces of TunePat and Pandora. If the Pandora web player doesn't launch automatically, you can click on the **Open the webplayer window** button on the main interface of TunePat Pandora Music Converter. Then you will enter the built-in web player of Pandora Music. To get access to Pandora Music library, please log in to Pandora Music.
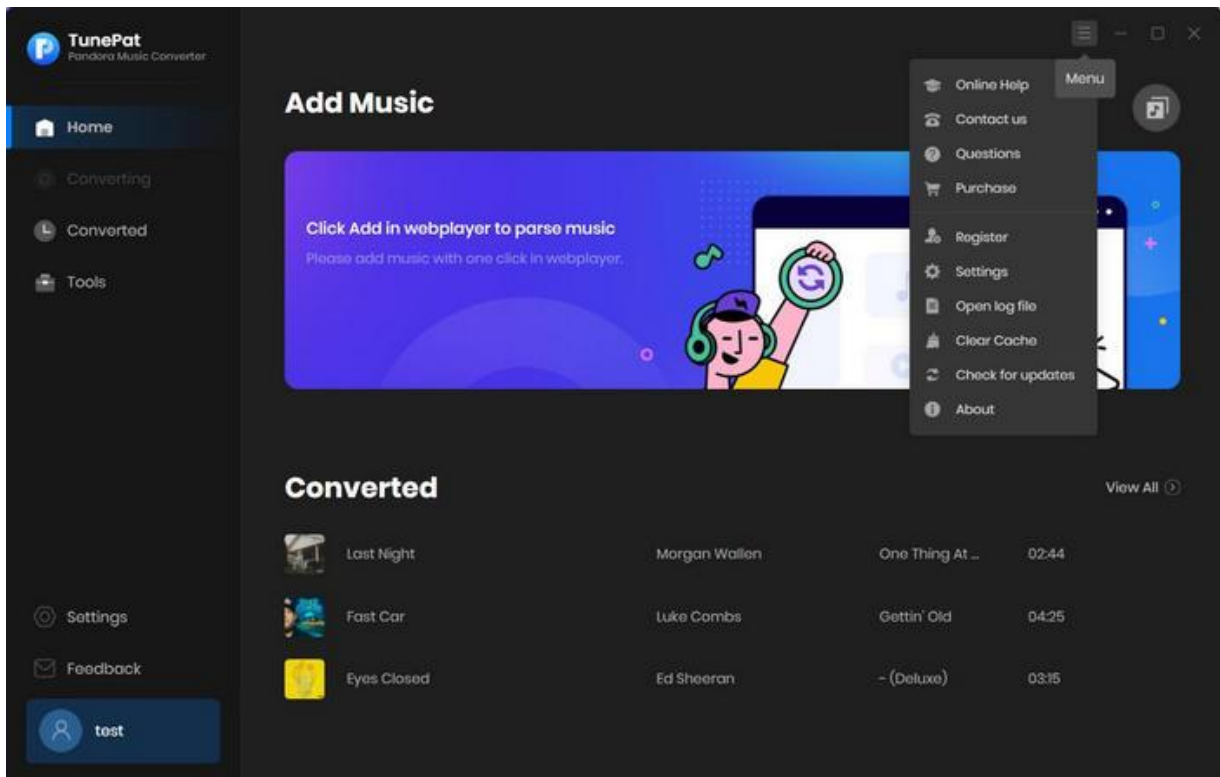

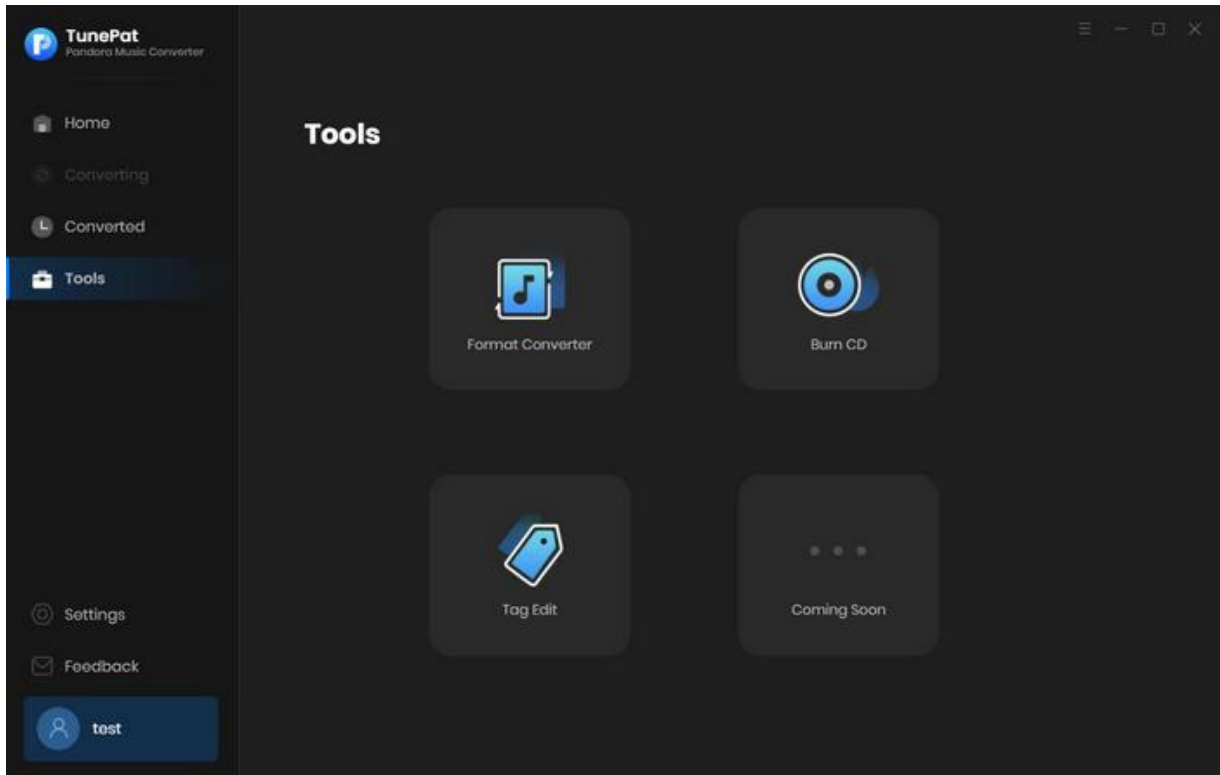

Menu

Click the **Menu** button ☰ in the upper right corner of the interface, you'll see the drop-down list. Here you can send log files to us when you are looking for technical support, clear TunePat's cache, check for update when a new version is available and so on.
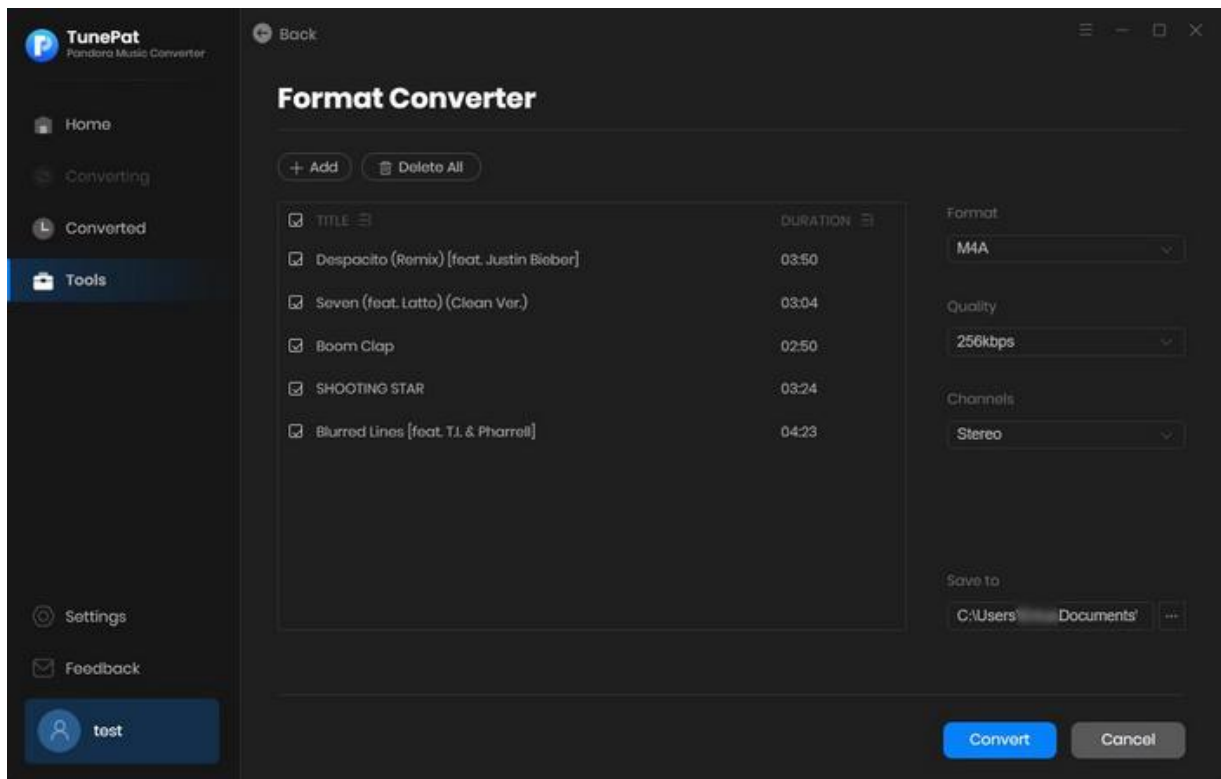

Tools

TunePat Pandora Music Converter provides a wide range of beneficial features in addition to attending to the various needs of users. A specific option called **Tools** has been made in order to achieve this goal. It contains three sections——**Format Converte**r, **Burn CD**, and **Tag Edit**.
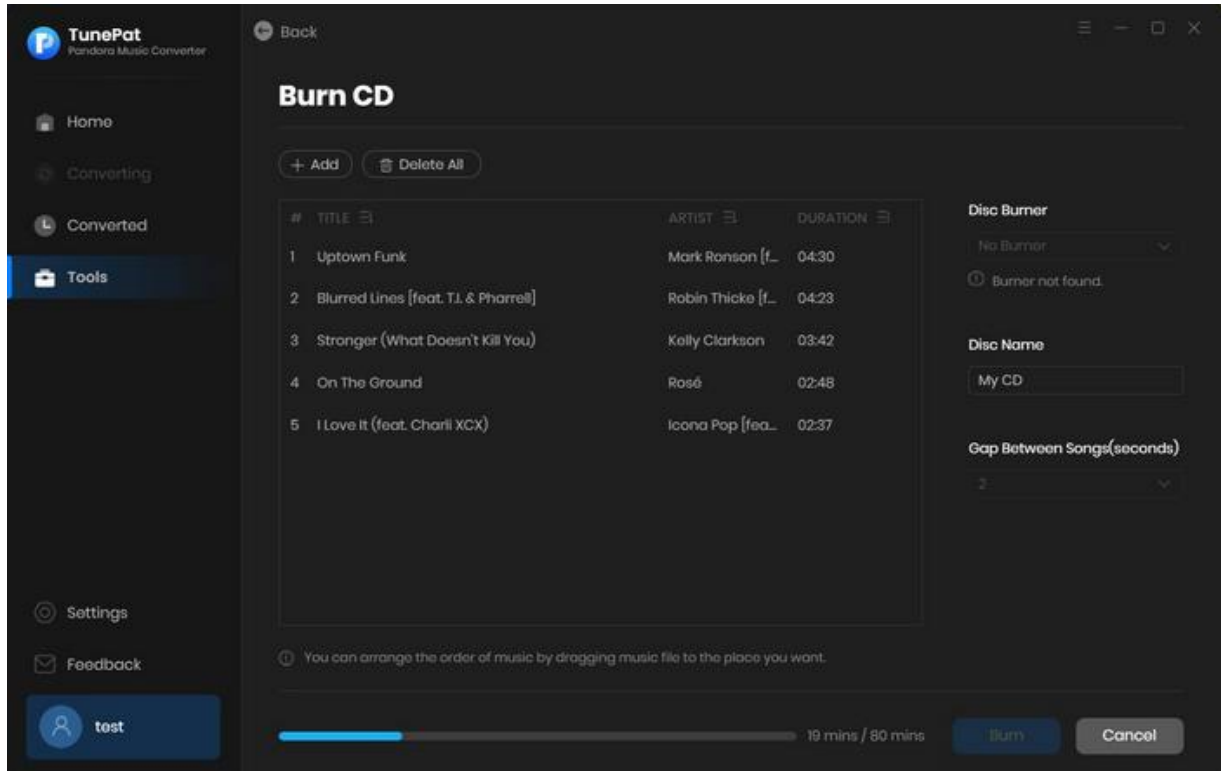

"**Format Converter**" is designed to convert Pandora songs to MP3/M4A/FLAC/WAV/OGG/AIFF. Users can choose between Mono and Stereo audio to suit their individual needs. Select **Stereo** if you want two audio channels that display the picture of a left and right sound.
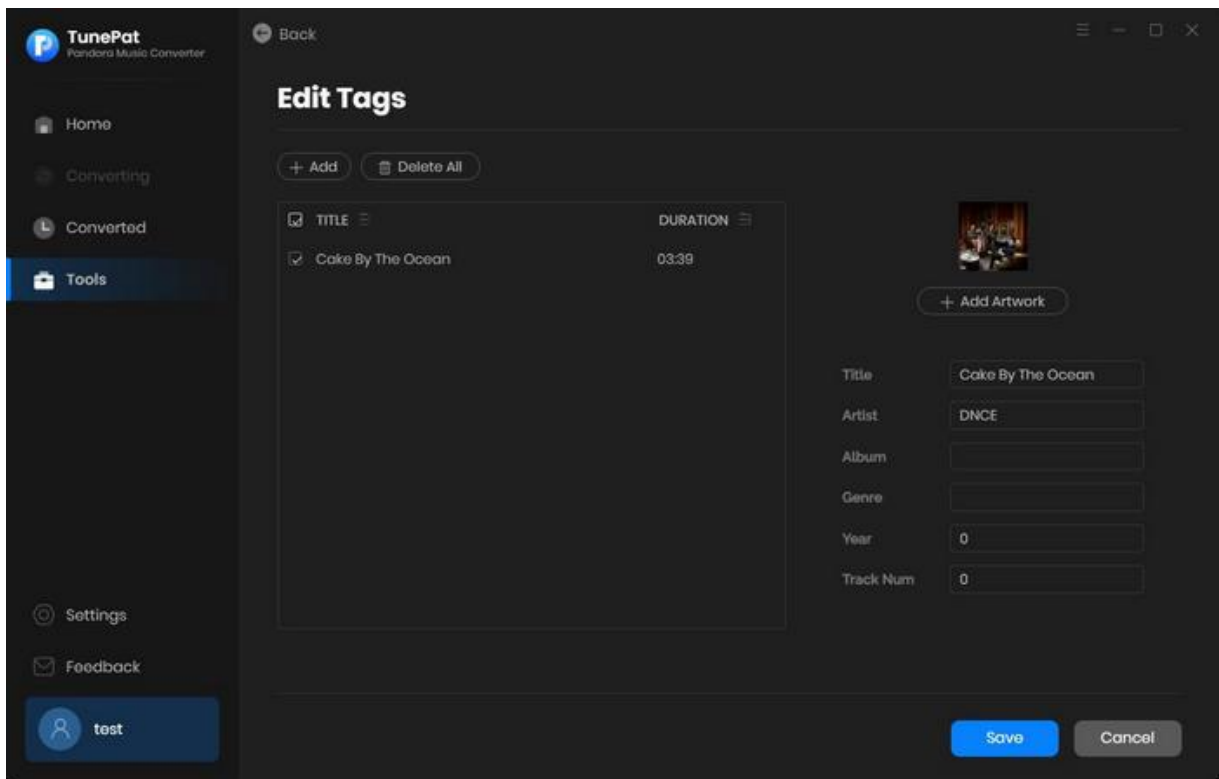

"**Burn CD**" offers an easy way for users who want to copy converted songs to CDs for storage. The music you recently converted can be added to the list by using the **+ Add** button. If you'd like, you can give the disc any name you want. Clicking the **Burn** button will start the burning process when you insert a blank disc into your CD or DVD burner.

"**Tag Edit**" is for users to change the tag information of Pandora songs, which includes Title, Artist, Album, Genre, Year, and Track Number. After your modifications, just click the **Save** button to complete the editing process.
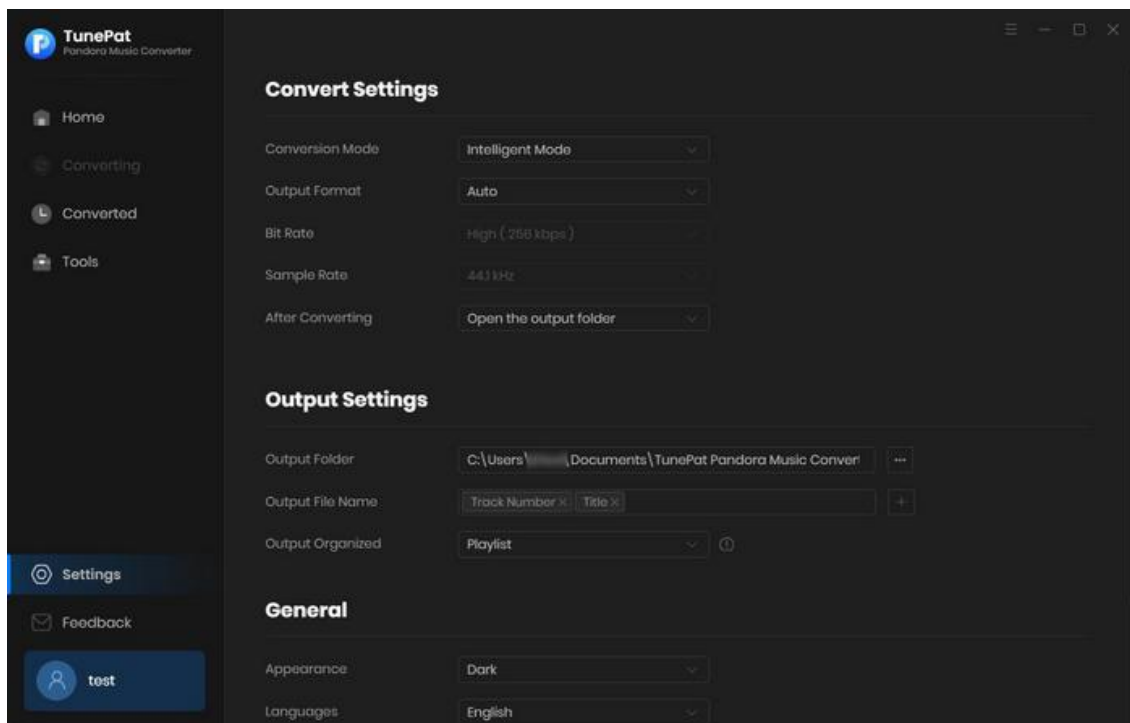

Tutorials

- Customize Output Parameters
- Select Music Files to Convert
- Convert Pandora Music

Customize Output Parameters

Go to the **Settings** ⚙ option in the lower left corner, click on it to pop up a setting window. And you adjust the output parameters now. The supported formats include Auto, MP3, AAC, WAV, FLAC, AIFF and ALAC. The bit rate, sample rate, output folder, proxy, and more settings can be customized.
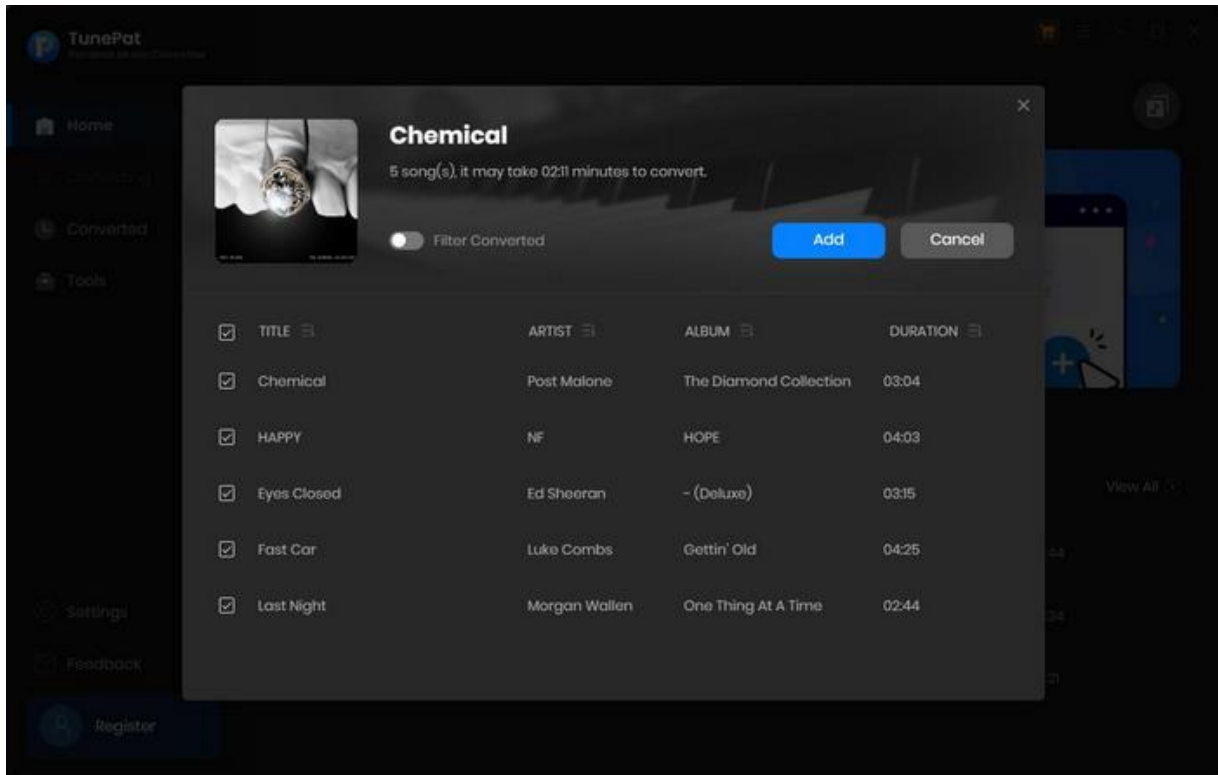

➢ Output Format: Auto, MP3, AAC, WAV, FLAC, AIFF, ALAC [If you want a faster
conversion speed, you can select the Auto mode in the Output Format column.]

➢ Bit Rate: 320kbps, 256kbps, 192kbps, 128kbps [You should know that the highest output
quality that TunePat can export depends on the actual quality of the original files.]

➢ Sample Rate: 44.1 kHz, 48 kHz, 96 kHz, 192 kHz

➢ Output File Name: Track Number, Title, Artist, Album, Playlist Index, Year

➢ Output Organized: None, Playlists, Artist, Album, Artist/Album, Album/Artist, Playlist/Artist,
Playlist/Album

Select Music Files to Convert

Locate a preferred playlist or album on the built-in Pandora Music, then click the **Click to add**

button . Soon after, TunePat will detect and load the songs automatically. Now you can select

songs you need to download by clicking **Add**.

Tutorial of TunePat Pandora Music Converter for Windows

There are three options when downloading music. If you need to convert these selected items right now, click on **Convert** option to start. If you want to convert more albums or playlists at once, you can keep clicking **Add More** button or go back to the Pandora Music Web Player and continue selecting Pandora songs. All songs that waiting to be converted can be browsed in the **Home** interface. If needed, you can choose the **Delete All** button to empty this list.

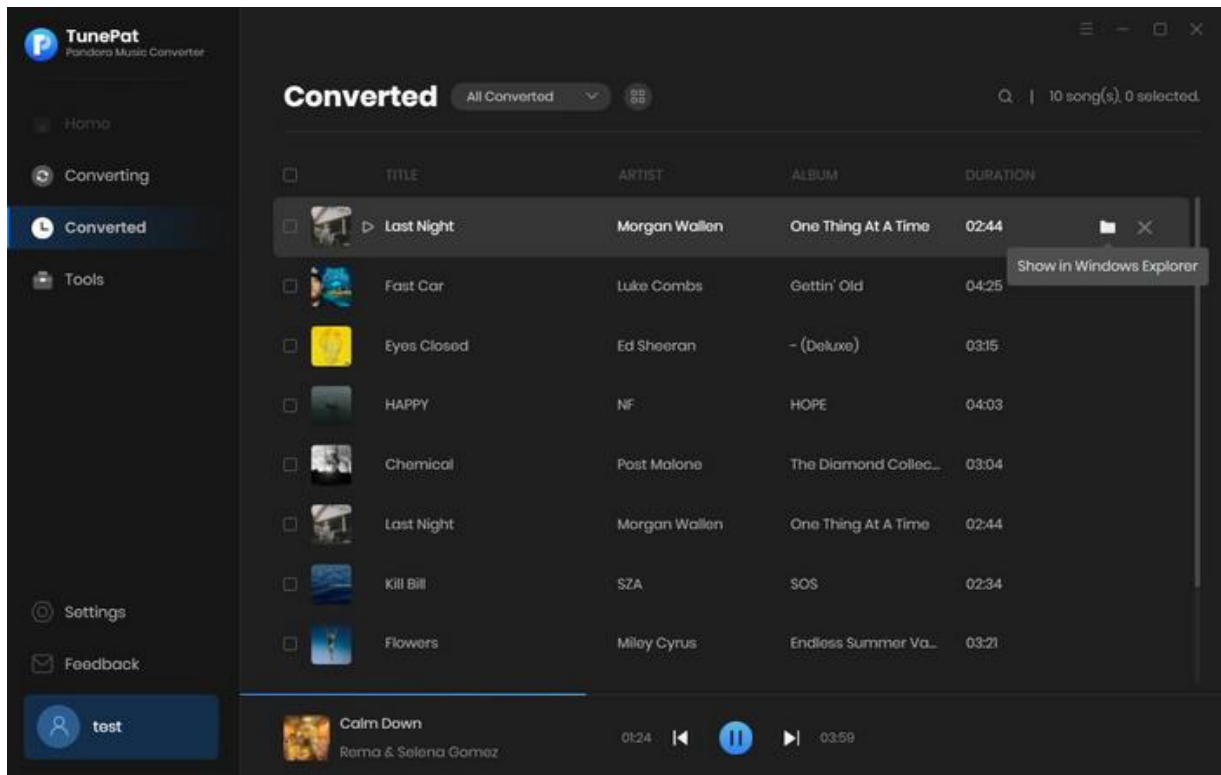

Tips: Here is a mode called **Put computer to sleep when finished**, and it is a neat way to conserve power when you're not using your PC. Plus, you can resume your work straight away without having to wait for your PC to boot up.

Convert Pandora Music

Once the conversion is done, you can click **Converted** to find the well-converted Pandora songs. You can also access the converted Pandora music stored in your Mac's local storage simply if you click on the folder icon next to any specific song (labeled as the **Show in Windows Explorer** button)
