### 1. Why should I buy TunePat Spotify Converter?

TunePat Spotify Converter is a shareware, and the trial version has limits that only enable users to convert the first 1 minute for each file. After you purchase this product, you will receive your Registration Email and Registration key to unlock the trial version limitation.

### 2. What are the Benefits after Registration?

- You can get access to **the full features** of TunePat Spotify Converter.
- You can enjoy **FREE** upgrades to the latest versions of the same product.
- You can enjoy **FREE** technical supports.

### ➤ Register TunePat Spotify Converter

**Step 1:** Click on the **Menu > Register** or your avatar in the lower left corner to open the registration window below and complete the registration process.

**Step 2:** Then copy and paste the registration **E-mail** and **Code** into the registration pop-up Window. Click on **Register** button.

**Step 3:** Once the registration process is done, there will be a pop-up dialogue saying **“You have successfully registered the program. Thank you for your support!”**, and it will also show you when your license will expire.

## Registration Tips:

1. Make sure your computer is well-connected with the Internet.
2. We suggest you simply copy & paste the **Registration information** into the pop-up dialog.
3. Make sure both **Registration Email** and **Registration key** are provided by our company after purchasing. If you have not paid, please click **Buy Now** to finish the payment and get the license.
4. Please make sure the Registration Email and Registration key you entered are complete, and do not insert any blank before or after them. Otherwise, normal registration will not be possible.
5. A license key of TunePat can only be used by one computer device. If you need to replace the computer, please contact the TunePat customer service team by email to help you deal with it. If you register and use on **multiple devices** at the same time, the registration code will become invalid and you cannot register successfully.
6. In the case of subscription renewal, then complete the registration by these steps: Click on the **“Renew License”** button → Enter the E-mail and the new code you have received on the renewal date. → Tap on **“Confirm”**.

### ➤ Add Spotify Music to TunePat

TunePat can convert music from Spotify app or web player. The conversion speed and audio quality between them are slightly different. For details, please see: [App VS. Web Player Music Downloading](#).

To change the audio source, you can click the button “**Spotify App**”. Here, you can decide to choose convert music from the **Spotify App** or the **Spotify web player**.

To convert music from the Spotify web player, you can have it embedded in the program or have it pop up. You can switch by clicking “**Keep in Converter**” or “**Pop out Player**”.

Log in to your Spotify paid or free account. Browse songs, playlists, albums, audiobooks, or podcasts, open what you wish to convert and click the “**Click to add**” button located in the lower right corner.

The analyzed content will appear in a pop-up window. All items are selected by default, but you can manually uncheck the titles you don't want. If needed, you can click the **“Filter Converted”** button to filter out songs that already exist in the current local path to avoid duplication. Then, click the **“Add”** button to add these songs to TunePat.

## ➤ Adjust Output Parameter

Before converting songs, click the “Settings” button. Here, you can complete the customization of multiple parameters. Including the following:

- Output Format: **Auto, MP3, AAC, WAV, FLAC, AIFF, ALAC** [If you want a faster conversion speed, you can select the **AUTO** mode in the **Output Format** column.]
- Bit Rate: **(Very High) 320kbps, (High) 256kbps, (Medium) 192kbps, (Low) 128kbps** [You should know that the highest output quality that TunePat can export depends on the actual quality of the original files.]
- Sample Rate: **44.1 kHz, 48 kHz, 96 kHz, 192 kHz** [Will vary depending on the selected output format; for example, when you choose MP3, only 44.1 kHz and 48 kHz options are available.]
- Save lyrics (if provided): After activating this button, TunePat will automatically recognize, download, and save Spotify song files as **LRC or TXT** files.
- Output File Name: **Track Number, Title, Artist, Album, Playlist Index, Year**
- Output Organized: **None, Playlist, Artist, Album, Artist/Album, Album/Artist, Playlist/Artist, Playlist/Album**
