Introduction

TunePat YouTube Music Converter for Mac is devoted to converting songs, music videos, albums, and playlists from YouTube Music platform. It helps YouTube Free and Premium users to convert YouTube songs into common formats, including MP3, AAC, WAV, FLAC, AIFF, or ALAC. Converted YouTube Music will be open source, gaining a wider compatibility with multiple internet-free devices. Sound quality will be kept as the original, the best up to 320 kbps with no quality loss at all. Principle ID3 tags like track title, album title, artist name, artwork, and more will also be preserved.

Key Features

- Available for both YouTube Free and Premium users;
- Flawlessly download YouTube Music to computer for a permanent playability;
- Convert YouTube albums, playlists, or podcasts in batch at an ultra-fast speed;
- Export YouTube Music to MP3, AAC, WAV, FLAC, AIFF, or ALAC files;
- Keep original output audio quality and retain key ID3 tags;
- Save music videos in MP4 format of up to 4K quality;
- No need to install the YouTube Music app;
- Handy tools: Format Converter, Tag Edit, and more.

System Requirements

- macOS 10.15 macOS 14.
- 1GHz processor or above.
- Monitor with 1024 x 768 pixels or higher resolution.
- 256MB or higher of RAM.

- Add YouTube Music to TunePat
- Select Music Files to Convert
- Convert YouTube Music
- Other Functions

Log In YouTube Music Account

Start TunePat YouTube Music Converter on Mac, then log in to your YouTube Music account. If you are a new user of YouTube Music, you need to click **SIGN UP** to create a new YouTube Music account.

Output Parameters Customization

Then click on the **Settings** button the upper right corner to choose the output format (**MP3, AAC, FLAC, WAV, AIFF, ALAC**), bit rate (ranging from **128kbps** to **320kbps**), sample rate (from **44.1 kHz** to **192 kHz**), output folder, output file name, appearance, languages, and more.

Note: If you choose **AUTO** as the output format, TunePat YouTube Music Converter will convert music at a faster speed.

For better organizing your music library, you can save the output audio files into an organized folder like Playlist, Artist, Album, Artist/Album, Album/Artist, Playlist/Artist, and Playlist/Album.

	Languages	English

Tips: "**Save lyrics (if provided)**" is enabled by default. You can export the **lyrics file to TXT format** while getting local audio files from YouTube Music. You can slide this button to close if you do not have this need.

Add YouTube Music to TunePat

Switch to the YouTube Music web player window and open a song, album, artist, or playlist. Then, click the blue **Click to add** button located on the lower right-hand side. TunePat will automatically identify and display all available songs in a pop-up window. Manually select the YouTube Music and click on the **Add** option to add these titles onto TunePat list.

Feedback	Stuck with U		Ariana Grande		041	8	

*Note: The Filter Converted button in the upper left corner allows users to filter out previously converted songs in the selected output folder, preventing duplicates.

Select Music Files to Convert

After that, the chosen songs will be added to the list on the home page.

Here are some available options:

- Also download the music videos (If provided) option: This button is turned off by default. If you wish to download music videos, simply toggle this button on (it will turn green). TunePat will then search for and download the corresponding videos. The videos will be saved in MP4 format, and the output quality will depend on the source file, with a maximum resolution of 4K.
- **Put computer to sleep when finished**: This button allows your computer to automatically go to sleep after converting a large number of songs.
- Add More option: This option takes you back to the web player, allowing you to continue selecting songs.

- Delete All option: Clears all items from the list.
- Convert option: Clicking this option will initiate the conversion process immediately.

Other Functions

Apart from its primary function of converting and downloading songs and music videos from YouTube Music, the program also offers additional free tools.

Export YouTube Music to iTunes:

In the Converted module, select all converted YouTube Music or some titles, then click this foursquare icon and select **Export to iTunes** from the drop-down menu bar. You can customize the name of the transferred playlist, and then Click **Start exporting** to start the transfer.

Tools:

Click Tools from the menu bar on the left side of the program, and then you will see three tools, namely a tool for converting AA and AAX format files into a common format, a format converter and a song tag information editor.
